LIFETRONS

# Worldwide **Travel Adaptor**

With 2 USB Charging Ports

## User Guide EN FG-2103

Thank you for purchasing the Lifetrons® Worldwide Travel Adaptor with 2 USB Charging Ports. This product is specially designed for use in multiple countries. This user guide outlines the operating procedures and safety precautions. Please read it carefully to make sure you are using your travel adaptor properly and retain it for future reference.

### What's Included
- Worldwide Travel Adaptor with 2 USB Charging Ports
- Travel pouch
- User guide

### Compatibility
This adaptor (5VDC. 1A Max) is not a transformer; it does not provide a voltage switching function. This product is not compatible with appliances that use power in excess of 830W at 110VAC or 1750W at 230VAC. The USB port output is not compatible with devices that use more than 5V DC.

### Features
- Universal adaptor with retractable AC plugs for use in over 150 countries
- Safety sliding device
- Safety shutter
- Power indicator
- Supports appliances with max 8A, 100-240V (830W max. at 110VAC; 1750W max. at 230VAC)
- 2 x USB output (5VDC, 1A Max.) - charge any of your 5V portable devices via USB output

### Specifications
- Input: 100-240VAC, 50/60Hz
- Dual USB Charge: 5VDC x 2, 1000mA Max
- Built-in 8A Fuse

### How to Use
The adaptor provides two power outputs:

**A. Universal Outlet**
1. Gently press the button and slide out the required pins completely.
2. Plug the universal adapter into the wall socket.

**Europe**
**Korea**

**Australia**
**New Zealand**

**USA**
**Japan**

**United**
**Kingdom**

Pull out earth pin before plugging in

**Attention:** *This adaptor only allows changing the pins to fit in the wall socket. It does not provide power or voltage switching. Please make sure your devices support the voltage of the country you are in.*

**USB**
Type A USB charge port

**B. USB Ports**
1. You may charge your electronic devices by connecting any USB charging cable to one of the USB ports.

**Attention:** *The USB ports provide a maximum of 5V to charge electronic devices.*

**Note:** *Some USB cables function for data transfer only and may not work for charging purposes.*

### Safety Precautions
Please follow the rules outlined in this guide closely to ensure your safety and flawless operation:
- This is not a transformer.
- Be cautious of any edges, uneven surfaces, metal parts and accessories or packaging to prevent possible injury or damage. Take note that this product should not be placed in your mouth.
- Do not modify, repair or dismantle the product. Doing so may result in fire, electric shock, complete breakdown of the product, etc. and will void the warranty.
- Do not use any kind of liquid to clean the product. Keep in mind that the surface of the product should only be wiped with a clean dry cloth.
- Do not use this product in locations with high temperatures or high humidity levels (i.e.: bathrooms); ideally, the product should be used in a location free of excessive dust and not exposed to direct sunlight.
- Do not insert foreign objects or liquids into the product; this could damage the driver.
- Do not touch this product when your hands are wet; this could result in electric shock.
- Refrain from dropping the product or bumping it against other objects.
- Do not use this product in hazardous locations.
- Should any abnormal situations or problems occur while using this product, discontinue its use immediately.
- The product may explode if disposed of in a fire.

### Children
Keep out of reach of children. Do not allow children to play with your product or its accessories. They could hurt themselves or others and could accidentally damage the product. Your product and its accessories may contain small parts that could become detached and create a choking hazard.

### Disposal of Electrical and Electronic Equipment
This symbol indicates that all electrical and electronic equipment included with this product should not be treated as household waste. Instead, it should be left at the appropriate collection point for the recycling of electronic equipment. By ensuring this product is disposed of correctly, you are helping to prevent negative consequences for the environment and human health. To recycle this product, please contact your local city office, household waste disposal service or where you purchased the product.

### Lifetrons Limited Warranty
If within 12 months of purchase this product or any part thereof is proven to be defective by reason of faulty workmanship or defect in materials, we will repair or replace the same product free of charge of labor or materials on condition that:
1. The original invoice or sales receipt with the date of purchase is presented with the defective unit.
2. Lifetrons does not take any responsibility for lost information of any kind and will not reimburse you for any such loss.
3. The limited warranty is only valid if the original proof of purchase for this product, issued by a Lifetrons authorized dealer, specifying the date of purchase, is presented with the product to be repaired or replaced. Lifetrons reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the product from the dealer.
4. The warranty does not cover product failures which have been caused by use of accessories or other peripheral devices which are not Lifetrons branded original accessories intended for use with the product. The warranty does not cover any damage caused by misuse, abuse, neglect or accidental breakage.
5. The warranty does not cover product failures caused by modifications, repairs or disassembly by any person not authorized by the manufacturer.
6. Any defective unit or part shall become property of the manufacturer.
